

PROFESSIONAL DEVELOPMENT FOR NONPROFIT EXECUTIVES

A week-long intensive learning experience, ELPNO offers practical opportunities for peers and experts to share insights and ideas as they explore the latest strategies in the nonprofit field.

Each ELPNO class is made up of current and emerging nonprofit executives who work side-by-side with a nationally known faculty. Lead faculty from Georgia State University, the University of Georgia, and Georgia Tech combine forces with visiting faculty from DePaul University, Syracuse University, Emory University, and national nonprofits to create a powerful learning experience. Participants gain special insights and deep knowledge about nonprofit organizations.

At ELPNO, executives learn how to increase the capacity and sustainability of the nonprofit organizations they lead.
